

REMARKS/ARGUMENTS

Applicant's attorney thanks the Examiner for the courteous interview. The purpose of the interview was to make the applicant's response to the final rejection suitable for entry for purposes of Appeal thereby limiting the issues on Appeal. The Examiner's objection to the response to the final rejection was based on his opinion that claim 10 and claim 19 introduced new issues to be considered on Appeal. In the interview, applicant's attorney pointed out to the Examiner that prior to the applicant's response to final rejection, claim 10, in section cc), provided for insertion of a key in the key pair of section bb) into the supplementary certificate. As for claim 19, applicant's attorney agreed to remove "at least" from section a) to overcome the objection of the Examiner. It is applicant's attorney's understanding that the response to final rejection (as amended herein) will be entered for purposes of Appeal.

Respectfully submitted,

James E. Murray - Attorney
